# Industry News

## BALDWIN

Hard to believe we have only been stocking Baldwin for less than a year! We continue to expand and invest in this upscale product line. Look for deeper stock and better pricing on Baldwin images. Details will be coming out in late March.

## Weslock®

Weslock is the “real deal” and a great alternative to EMTEK. The pricing is extremely attractive and ABS has the inventory to back up your requirements. Contact your field sales rep for information regarding free displays, mounts, and promotional materials.

ABS is now stocking Baldwin’s most popular designs in Multi Point trim!! These unique locks work with both Ashland and Hoppe swinging door products. Don’t miss out on this opportunity to upgrade your customer to a high quality line of hardware to go along with their Jeld-Wen doors.
